# UNIQUE DOOR FOR UNIQUE INTERIORS

---

**We are pleased to present you the original DRE Supreme line. This is the result of our cooperation, in which we have combined many years of experience in the production of doors with the exceptional talent of architect Krzysztof Miruć. In this catalog we would like to present a range of unique products that at the same time perfectly complement the current DRE offer.**

---

DRE Supreme includes five unique collections tailored to different needs and interior design styles. Each of them has been designed with the most demanding and conscious customers. This stylish door responds to the latest design trends and at the same time is timeless and made with the utmost care and attention to detail .

When we presented DRE Supreme collection for the first time in 2022, we did not expect it to be such a spectacular success. We are very pleased that so many people have trusted us and focused on quality, durability and original design. We would like to invite you to get familiar with DRE Supreme line. We believe that you will be able to choose from our offer original doors for your unique interiors.

**Leszek Berbeć,**  
CEO of DRE Sp. z o. o.

**Krzysztof Miruć,**  
architect, designer of DRE Supreme line

KIOTO

**NEW**  
**KIOTO**

## COLLECTION

---

The new Kioto collection was created out of love for wood, which, after a long period of Poles' passion for white and bright rooms, returns to the interiors again. In our collection, the theme of wood has been presented in a modern, elegant and minimalist form. Japanese Kioto city was the inspiration, where modern architecture collides with nature and trees that fill numerous gardens and parks.

### MY ADVICE

---

We combine the colors of wood in interiors on the basis of similarity or contrast. If we do not want the door to stand out against the background of the whole interior, we shall choose furniture and accessories in a similar decor as the door leaf. If we want Kioto collection to be a decorative element of the interior, it shall be combined with contrasting elements of the whole equipment.

# KIOTO

## COLLECTION

---

**Panel construction doors with a leaf height of 2300 and 2043 mm in wood-like laminates. In KIOTO 2,3,4 models, there are available inlays in moro matt and brushed steel color.**

The **SILENT** package in KIOTO collection is available with extra charge and ensures sound insulation at the level of **37 dB**. It is a perfect solution where you need to mute the room and cut off the sounds of the rest of the house. Doors with the **SILENT 37 dB** package are recommended for bedrooms and children's rooms.

### STANDARD OPTION

- wood-based board frame

#### tubular chipboard insert

- door leaves covered with 0.8 mm laminate in horizontal graining

### SLIDING DOOR LEAF

- sliding system for 2043 mm norm - SPAZIO CD sliding system can be used with the collection
- edge without rebate

### non-rebated door leaf

- edge without rebate in the color of the door leaf or black
- sockets for 3 recessed Estetic 80 hinges for the 2300 mm height and 2 recessed Estetic 80 hinges for the 2043 mm height (hinges are a part of the door frame)
- magnetic simple key lock, bathroom lock, cylinder lock or economic magnetic lock and black or steel hinges
- magic magnetic lock with Konzerva handle, additional bathroom lock, door leaf is prepared for self-assembly of the lock and handle
- the SILENT 37 dB package applies only to non-rebated doors with a magnetic lock with the handle, with acoustic filling and a dropping seal

### INVERTED REBATE DOOR LEAF (extra charge)

- active opening door leaf
- sockets for 3 Estetic 1821 recessed hinges for 2300mm and 2 Estetic 1821 recessed hinges for 2043mm (the hinges constitute the elements of the door frame)
- magnetic simple key lock, bathroom lock, cylinder lock or economic magnetic lock and black or steel hinges .

HAMPTON

# HAMPTON COLLECTION

---

When we hear "Hampton", we see bright, classic interiors, full of sunshine and we feel a holiday atmosphere. Thanks to this collection we can transfer this atmosphere to both large houses and smaller apartments. Hampton is a timeless frame door with noble milling and universal design. If you like classic forms, this collection should be your favourite.

## MY ADVICE

---

The Hampton collection is extremely versatile and suits many different interior styles. While arranging an apartment, it is worth paying attention to lighting, which can additionally bring out the beautiful milling in the door and enhance the three-dimensional effect.

# HAMPTON

## COLLECTION

---

**Frame doors with milled rails and profiled internal panels. The leaves are available in heights of 2300 mm and 2043 mm.**

Our new matte foils are refined with an exclusive technology of physical surface treatment, which combines smart solutions, high-quality design and unique features such as scratch resistance, easy cleaning, anti-fingerprint protection and stain resistance. Moreover, they do not contain formaldehyde, which helps to keep the air in the room clean.

CITY

# CITY

## COLLECTION

---

The energy and dynamism of the city that never sleeps. Modern architecture and the famous London's financial district called City has inspired me to design this extraordinary collection of doors. In this collection you will find simple and modern plate leaves. They are distinguished by linear decors that can be adapted to your own preferences. We can choose versions with elegant dark glass and beautiful inlays in gold, steel, copper, white and black. The decors come in both in a horizontal and vertical option.

### MY ADVICE

---

It is worth to adjust the inlays on door leaves with other interior design elements, e.g. if you choose gold, I recommend choosing lamps, furniture and decorations in the same finish. Thanks to this, the room will look consistent and refined.

# CITY

## COLLECTION

---

The CITY 1 and CITY 2 with a leaf height of 2300 mm and 2043 mm are made of Gloss Laminates (bianco, moro) and MATTfoils: white matt, black matt 2, light gray matt, dark olive matt, dark blue matt, cashmere matt, warm grey matt. The CITY 3 model is a frame door with a height of 2300 mm and 2043 mm and is available only in the decors; bianco, white matt, light gray matt. The CITY 3 model contains of a 8 mm black laminated glass and black marquetry in the moro matt laminate.

In MATT decors the leaf's edge is black, whereas in acrylic laminates, the edge is in the color of the leaf which means can come in various colours. **Glossy laminate with a thickness of 0.7–0.8 mm** is a modern laminate with a high degree of gloss, giving the effect of a mirror reflection. It is characterized by a perfectly smooth surface with increased scratch resistance. The MATT foils used are refined with an exclusive technology of physical surface treatment with attention to detail, which combines intelligent solutions, high-quality design and unique properties such as: **scratch resistance, easy cleaning, anti-fingerprint protection, stain resistance.** Moreover, **they are formaldehyde-free** and make a valuable contribution to clean indoor air. The matt aesthetic appearance creates a classic, yet modern, contemporary finish.

### STANDARD OPTION

- edge without rebate
- filling with solid chipboard or perforated chipboard
- door leaf taped with glossy laminate or MATT foils
- black edging for MATT foil, whereas edging for acrylic decors come in the color of the door leaf
- Magnetic simple key lock, bathroom lock, cylinder lock insert or magnetic economic lock and hinges in black for black edge and white for white edge.
- sockets for 3 recessed Estetic 80 hinges for the 2300 mm height and 2 recessed Estetic 80 hinges for the 2043 mm height (hinges are a part of the door frame)

### SLIDING DOOR LEAF

- sliding system for 2043 mm norm - SPAZIO CD sliding system can be used with the collection
- edge whitout rebate

### OPTIONS WITHOUT EXTRA CHARGE

SOHO

# SOHO

## COLLECTION

---

**Our love for the loft style does not fade away and that fact does not surprise me at all. It can be successfully adapted to your own taste, and its elements can be smuggled into interiors in various climates. If you like a timeless loft atmosphere I recommend the Soho collection. You will find plate doors with safe frosted or transparent glass and black geometric divisions. There are several models with different colors and heights.**

### MY ADVICE

---

The theme of the graphic lines that decorate the door should be continued in other interior fittings. For example you should consider elongated black handles or a rectangular mirror in a dark frame. Please remember that the Soho collection will not only work in typical loft arrangements, but will also perfectly fit into any other simple and elegant interiors.

# SOHO

## COLLECTION

---

**Plate doors with a leaf height of 2300 mm and 2043 mm with a black SLIM frame and muntin bars. The leaf is filled with solid chipboard, laminated safety glass VSG 22.1 milky or transparent. The leaf surface is taped with MATT foil.**

The used MATT foils are refined with an exclusive technology of physical surface treatment, which combines intelligent solutions and high-quality design and unique properties such as: **scratch resistance, easy cleaning, anti-fingerprint, stain resistance.** In addition, **they are formaldehyde-free** and make a valuable contribution to indoor air quality. The matt and aesthetic appearance creates a classic, yet modern, and contemporary finish.

### STANDARD OPTION

SOL

## SOL COLLECTION

---

**This is a collection for lovers of geometric patterns and three-dimensional surfaces. Graphic milling definitely adds character and thanks to acrylic UV varnish we can guarantee that the door leaf will remain white for a long time. There are several models to choose from for the lovers of straight lines, oval shapes and joy with geometry.**

### MY ADVICE

---

Doors from this collection can be an interesting piece of decoration for simple interiors or a perfect complementation to geometric arrangements. Please remember to adjust the model to the shapes that we can find in the room. For example, in the Sol 2 model it is worth combining with oval furniture and a round mirror. Vertical lines, such as in the Sol 4 model will make the room seem higher than it is.

# SOL

## COLLECTION

---

**Panel door milled and painted. The door leaves are available in two heights: 2043 mm and 2300 mm.**

The surface of the door leaf and frame in the SOL collection is painted with a special primer that SOL doors are painted with high-quality acrylic lacquer, which is hardened with UV radiation technology. This guarantees the highest quality of workmanship and protects the door against mechanical damage and dirt during everyday use

### **STANDARD OPTION**

**door leaf painted with acrylic UV varnish**

- wood-based board frame

## INVERTED REBATE

Doors with inverted rebate are a perfect solution when designing interiors where we want to create a uniform plane of all doors, despite the different opening direction, outside or inside the room.

Adjustable door frame with inverted rebate is made of high-quality wood-based board. From the display side, the door frame is covered with MATT foils, CPL laminate or painted with the highest quality acrylic UV varnishes. To ensure high quality of painted door frames, they are covered with a special material that forms a uniform base before painting. Its construction is adapted to the leaf thickness of 40 mm and can be assembled on walls with a thickness of 90 - 290 mm...

# "IT'S AN AMAZING SUCCESS"

Read the interview with the architect and designer of DRE Supreme line, Krzysztof Miruć.

## KIOTO IS A COMPLETE NOVELTY. WHAT MAKES IT DISTINCTIVE FROM OTHER COLLECTIONS?

Kioto is the latest, fifth collection in the Supreme line. The distinctive feature of these doors are laminates imitating natural veneer. Until now, door leaves were colored, matt, glossy or milled. Door leaves from Kioto collection are simple and their surface refers to natural laminates in color and texture.

## YOU USE SUPREME DOORS IN YOUR PROGRAMS, YOU TALK TO ARCHITECTS DURING MEETINGS. WHAT IS THE RATING OF THE SUPREME LINE MORE THAN A YEAR AFTER ITS PREMIERE?

**SUPREME line was warmly welcomed.** This is fantastic news for us. It turned out that these four collections meet the expectations of customers, because we have door leaves that are both modern and classic. Supreme line is a combination of good design and quality performance. When I was designing the door leaves, I tried to take into account the right proportions and I took care of good graphic expression, and DRE added the latest technology to it - a laser that glues the edges of the leaves and the highest quality laminates. And there has been created the product that customers, the market and distribu-

tors have been waiting for. Our idea was accepted and people liked it. This is an amazing success for us. We are very pleased.

MODEL CITY 2 | moro, brushed gold marquetry

## WHICH IS YOUR FAVORITE MODEL FROM THE SUPREME LINE?

I like all models. They are different and that's what I like about them. I appreciate high-gloss doors with gold inlays from City collection, but also Hampton model in my beloved black color.

## WHICH COLLECTION IS SUITABLE FOR PARTICULAR INTERIOR?

I designed the wings regarding more modern, universal and classic styles. I assumed that the selected collections would be placed in the interiors intended for them. Meanwhile, it turned out that our doors are very universal, and the classic Hampton 1 model with a single panel looks great in modern interiors. My friend and business partner also chose this model. This black and very elegant Hampton door leaf

with one panel perfectly complemented the interior of his modern style apartment.

## WHAT ARE THE DEVELOPMENT PLANS FOR THE SUPREME LINE?

Of course, our heads are full of ideas and drawers full of drawings. At the moment, we are focusing on the Kioto collection, but we plan to develop the entire line. This year we added new models to Sol and Hampton collections. Doors from these both collections can also be ordered as door leaves with inverted rebate.

# DOOR HANDLES

Properly selected handle constitutes a complementary element of doors. **We offer you handles perfectly matched to DRE SUPREME collections.** For HAMPTON collection, we offer TELESTA handles in black matt and FRESIA FIT in gold, and for the CITY collection, CUBE SLIM handles in a color matched to the color of the marquetry. In CITY models with brushed copper marquetry, we offer the TELESTA handle with the addition of copper. The black TOM handle perfectly harmonizes with the graphic form of SOHO collection. The universal form of LIMA FIT handle harmonizes with SOL collection as well as with other collections. PORTO and SOLLER door handles are available only in DRE Supreme line.

# DOOR FRAMES FOR KIOTO COLLECTION AND MAGIC MAGNETIC LOCK

## CONSTRUCTION AND PRICES

The adjustable non-rebated and inverted rebate door frame is made of high-quality wood-based board. From the display side, it is entirely covered with CPL laminate. Its structure is adapted to the door leaf thickness of 40 mm and can be assembled on walls with a thickness of 75-320 mm and adjustment of +20 mm in the non-rebated version and in the range of 90-290 for the door frame with inverted rebate. Door frames in CPL laminates are available only in the variant of joining the door frame at an angle of 45°.

The prices also include 2 hinges with fixing plates for the height of 2043 and 3 hinges for the height of 2300.

Extra charge for the third Estetic 80 hinge for height 2043 non-rebated

Double-leaf door frame price in the 2043 standard: +50%. (extra charge for the third hinge)

Price of the door frame for double leaf door in the 2300 norm: +50%.

Extra charge for the third Estetic 1821 hinge for height 2043 inverted rebate

Door frames in CPL laminates are made only in the variant of joining the door frame at an angle of 45°.

Technical drawing and tables are available on other pages of the catalogue.

## MAGIC MAGNETIC LOCK

An innovative system of door opening and closing without a handle. Magic Magnetic system is a set of very strong magnets. Opposite the door leaf, we placed a magnetic stainless steel block. When closing the door, the two elements come together and ensure an even, perfect closure thanks to the magnetic force. Magic Magnetic reliably controls and holds doors, but does not close them.

**Attention:** magic magnetic lock and its components are delivered in separate packages for self-assembly.

KONZERVA handle - black matt

bathroom lock with a square knob - black matt

magic magnetic lock + adjustabel block of door frame - black matt

Installed magic magnetic lock with KONZERVA handle and additional bathroom lock

# Door frames for Hampton, City, Soho and Sol collections

## CONSTRUCTION

Adjustable non-rebated door frame is made of high-quality wood-based board. On the display side it is fully covered with mat foil, acrylic laminate or painted.
